PROVISIONS

---

*All conditions and requirements contained in reports of examination or permits previously issued apply to this certificate unless specifically noted below.*

**Easement and Right-of-Way**

The water source and/or water transmission facilities are not wholly located upon land owned by the applicant. Issuance of a water right authorization by this department does not convey a right of access to, or other right to use, land which the applicant does not legally possess. Obtaining such a right is a private matter between applicant and owner of that land.

**Water Use Efficiency**

The water right holder is required to maintain efficient water delivery systems and use of up-to-date water conservation practices consistent with RCW 90.03.005.

**The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.**

**This certificate of water right is specifically subject to relinquishment for non-use of water as provided in Chapter 90.14 RCW.**

*Given under my hand and the seal of this office at Spokane, Washington,  
this 12th day of March, 2013.*

Maia Bellon, Director  
Department of Ecology
